

The Kit-Building Experience

A Sense of Home prevents homelessness by creating homes and an ongoing community of care for young adults transitioning out of foster care.

If you can't attend a home creation, our office-based Kit-Building experience brings the impact to you! Your team provides the finishing touches that turn a furnished space into a true home, assembling thoughtfully designed home-warming kits, each filled with the essentials, comfort, and care that help someone truly feel at home.

Why Kits Matter

A home filled with hope, dignity, and care is the first step in preventing homelessness. By assembling thoughtfully designed home-warming kits, your team provides former foster youth with the essentials they need to thrive, helping them save money for rent and other necessities, equipping them for self-sufficiency, and surrounding them with the care and support of a community that believes in them.

The Kit-Building Experience

♥ Choose Your Impact

Select at least one kit to assemble at your office, based on your budget and the rooms you'd like to support. Each kit comes with a wish list of items to purchase, making it easy to order everything in just a few clicks.

♥ Make It Your Own

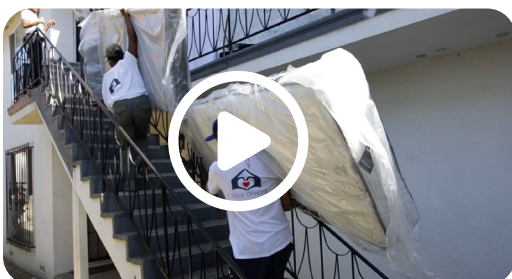

Prefer a hands-on approach? Host a donation drive using our curated checklists to collect new or gently used items from your community to assemble your kits.

♥ Connect with the Mission

Invite ASOH staff or alumni to join your event and share stories that bring the experience to life, showing the direct impact of your kits.

♥ Send Your Care Forward

After assembling your kits, deliver them to the A Sense of Home warehouse, or arrange for our volunteers to pick them up, so your kits can bring comfort, essentials, and care to someone's first-ever home.

Please watch this [video](#) and hear from recipients of ASOH the importance of these essential items in each kit.
